Item 1.01. Entry Into a Material Definitive Agreement

On September 9, 2005, Citizens Community Federal (the "Bank"), the wholly owned subsidiary of Citizens Community Bancorp (the "Company") entered into a data processing services agreement with Fiserv Solutions, Inc. ("Fiserv") for a period of five years, subject to automatic extensions of one year unless written notice of non-renewal is provided by either party at least 180 days prior to expiration (the "DP Agreement"). The Bank also entered into a series of purchase agreements and software user agreements, for a corresponding period, with Information Technology Inc. ("IT") for the computer equipment and software to be operated by Fiserv on behalf of the Bank (the "IT Agreements" and, together with the DP Agreement, the "Agreements").

The Bank's existing data processing services agreement, with an affiliate of Fiserv, expires in December 2005. The existing agreement has been in place since April 1990, and is based on a credit union system that was last upgraded in January 2001.

Under the new Agreements, Fiserv will provide data processing services and resources, and IT will provide a license to use its database processing software products and licenses for other IT software (the "IT Software") and third party interfaces to and from the IT Software, to the Bank pursuant to the Agreements. The services provided by Fiserv to the Bank generally include, but are not limited to, the general management of the Bank's data processing, installation and enhancement of IT Software, operation of IT Software and software developed by third parties, programming, furnishing, maintaining and operating computer equipment, providing information in various media forms, and the implementation through IT of Automated Teller Machine/Electronic Funds Transfer Processing, Electronic Bill Payment, and eDelivery Services (collectively, the "Services").
